New York, Nov. 14.—The Northern Securities Company, the \$400,000,000 corporation which was incorporated to take over the Northern Pacific and Great Northern Railand the following Board of Directors: John Willis James, Samuel Thorne, James J. Hill, E. T. Nichols, George F. Baker, Robert Bacon, George W. Perkins, Daniel S. Lamont, E. H. Harriman, Jacob H. Schiff, James Stillman, W. P. Clough, George C. Clark and N. Terhune. The election of Mr. Nichols and Mr. Ter

hune is of a temporary nature to complete the organization. They, in time, are expected to give way to other directors. Representatives in the city to-day were quite busy with providing timber for these two positions. Although the name of Lord Strathcona was mentioned as a possibility, the opinion was quite generally expressed that some representative of the St. Paul and the Chicago and Northwestern road would eventually turn up in the company.

It was noted that a heavy preponderance of the directors of the new company repre-sented the Great Northern Railway, though Northern Pacific and Union Pacific interests are also represented. This is explained on the ground of the preponderant interest of Great Northern in the Northern Securities Company. The Great Northern will hold \$225,000,000 of the security company stock, leaving \$178,250,000 for the remaining interests. The Union Pacific holds a 20 per ent interest, and, therefore, in proportion o its holdings, has one-fifth, or three out of the fifteen directors.

Discussing the personnel of the directorate, the Times will say to-morrow:
"Of these men, six may be considered as representatives of the Great Northern inerests, three represent the interests of J. Morgan & Co., and three more stand for the Harriman interests. Two are distinctly representatives of the Northern Pacific Rallroad, and the remaining director, Samuel Thorne, who was president of the Pennsylvania Coal Company, which now belongs to the Pennsylvania Railroad, is regarded as representing Eastern interests. "It is, however, a difficult matter to draw lines which divide this board according to various interests which make up the

Northern Securities Company. It may be stated on the authority of representatives of these interests that it would be a misconception of the purposes and objects of the new company and the agreement under which it was originated to make an attempt o draw a circle around each particular in terest having a delegation in the company.
On the contrary, the scope of the settlement, according to the words of a member of the Harriman side, is a much broader

BURLINGTON ELECTION

Aside from the meeting and organization of the Northern Securities Company, there was but little additional light thrown upon the Northern Pacific settlement to-day. The Burlington election at Chicago was again per paged for one week, owing, it was said,

BURIAL CERTIFICATE REFUSED. SAYS HE'S TIRED OF RIDICULE.

Leeker Oranges Which She Ate-Traces of Arsenic Found in Stomach.

Miss Tillie Leeker, 22 years of age, died at her home, No. 1540 North Seventeenth street, yesterday morning under circumstances which prompted Doctor Otto Sutter to refuse a burial certificate and to unrect the attention of the Coroner to the affair. An investigation by Deputy Coroner Boogher led to the arrest last night of James Clark, 24 years old, the fiance of the dead girl. He der, and it can no longer be charged that I are obstructing legislation— Police Station, Ninth and Angelica streets, to await the result of the inquest.

Doctor Sutter informed the Coroner that Miss Leeker had been discharged from the Jefferson Hospital last Friday morning. She and been his patient in that institution since October 28, where she had been sent by him for treatment made necessary by an unsuccessful operation which the physician says he discovered was performed some time prior to October 28. Doctor Sutter says time prior to October 28. Doctor Sutter says that the young woman was perfectly cured when she departed from the hospital Friday morning for her home accompanied by young Clark.

A few minutes after her arrival at the home of her parents, Mr. and Mrs. John F. Leeker, she became affected by intense nausea, vomiting ensued and Doctor Sutter was called once more. She sank slowly and passed away yesterday. Doctor Sutter

and passed away resterday. Doctor Sutter told the Coroner in reporting the case that there were symptoms of poisoning. A postimortem performed by Antopsy Physician Hochdoerfer revealed traces of arsenical poison in the stomach. That organ was removed and is now in possession of the City Chemist, who has been requested to make an analysis of the suspicious contents.

John F. Leeker informed the Coroner that when his daughter was taken suddenly ill after her arrival from the hospital he noticed some oranges on the couch in the room and asked her concerning them. He says that Tillie told him they had been given to her by her fiame and that she had eaten of them. CHAMP CLARK ON THE FUTURE.

Says Next Campaign Will Show Democracy in Old-Time Form.

REPUBLIC SPECIAL.

Washington, Nov. H .- "The Democratic party is growing stronger each year. This fact has been exemplified by recent elections when the Republicans showed marked weakness, and also by certain inharmonious conditions that exist among the Republican party leaders."

This is the opinion of Congressman Champ Clark, who passed through Washington this morning on a lecture tour. He added: "I don't pretend to say who will be the candidates for President in the next campaign. That is looking too far into the future, for in these times we can never tell what will happen from one day to the next. Mark me, however, that the strength of the Democrats is one of the most interest ing features of the present conditions. We are returning to the old-time position that

we once held, but which has lately been hampered by poor leadership. "I feel very confident that the next presidential campaign will show the party in its
